

ICO Phase 1
Aug 17th 2018 – Sep 16th 2018

ICO Phase 2
Sep 17th 2018 – Dec 31st 2018

The problems of business

- ❖ Expensive marketing. Effective marketing campaign needs significant investment, which usually in lack in small business owners;
- ❖ High commissions for using of payment systems, website development;
- ❖ Limited functionality of user interface for small business owner (limited opportunities to describe its services for the placement of photo and video materials);
- ❖ Unequal competitive conditions in comparison with big companies;
- ❖ Inability to automate the work of an online store;

The problems of customer

- ❖ High price;
- ❖ Difficult search of special services of specialist;
- ❖ Fake reviews which lead to low-quality services;
- ❖ Required payment without guarantees;
- ❖ Lack of objective information about services provided by small or medium business. As a result customer choose service of big companies and overpay for purchase.

What is FrelDO?

The first global a decentralized ecosystem linking service providers and customers, based on blockchain technology and smart contracts.
